

Smart Gym Solution (SGS)

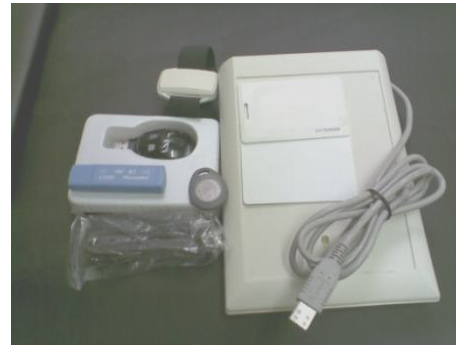

The Smart Gym Solution (SGS) is a fully computerised, web-enabled, multi-users gym and club membership management System. The system is easy-to-use, secure & time-Saving that designed to implement a web-based platform, which allows users to access the system from anywhere and to simultaneously work on the same system sharing business data.

Single or multi check-in module for front desk (reception stations) and any number of back office or administration computers can be used. The system mode of operation is automatically configured.

The SGS System works with RFID Proximity Card Reader technology for member access using cards or key fobs.

Member registration including key fob or card assignment and photo taken procedures can be done from any computer running the software from anywhere.

The SGS provides the tools and critical information you need to operate and manage your business. The system is flexible and can be customized for customers' requirements. The system is equipped with online capabilities that enable your clients to register and book for classes online.

The SGS System has the ability to add and configure exclusion restrictions for member access. Member's status is automatically displayed on front desk screen when the member enters your club.

The system creates a real time booking records for each class which easily identifying status and availabilities. The class booking system is very flexible and can be used online by members or through the software at reception or back office computers.

A message for an individual member or group of members can be set that is automatically displayed on front desk screen when the member enters your club.

Real time reports on members' attendance, classes booking, and 'pay as you go' online registration can be generated and reviewed at anytime from anywhere. The system implements a full computer control on single or multi in/out turnstiles.

The screenshot shows the 'SMART GYM SOLUTION (SGS) Version 1.0.42' software interface. On the left is a vertical menu with options like Staff, Members, Customers, Search, Payments, Display Classes, Tasks, Online Information, Reports, RFID Tags, Back-Up, Call Centre, CCTV, and Tools. The main area is split into several sections: a status panel on the left showing system mode (Administration), RFID reader status (Not Attached), and turnstile status (Not Connected); a central display area with a question mark icon; a control panel on the right for clocking in/out (Member/Staff), inputting tag codes, and manual scanning; and a data table at the bottom with columns for Time, Description, Value, Name, and Event. A status bar at the bottom right shows 'User Name: admin', 'System Mode: Administration', 'RFID Reader: Not Attached', and 'Turnstile: Not Connected'.
