

HIGH-TECH ELECTRONIC SOLUTIONS LTD

TAKEAWAY MANAGER (TAM)

State-of-the-art software designed especially for restaurant, fast food, takeaway and hospitality industries offering a unique marketing capability that will:

- Simplify all your telephone or in-shop order taking procedures
- Keep up-to-date customer information
- Log sales and generate revenue reports

TAM is adding value to your business, increase sales and improve relation with customers. Whether you own a restaurant, bar, coffee shop, nightclub or takeaway, the Takeaway Manager handles all of your administration tasks so that you can focus on growing your business while providing quality service to your customers.

Main Features

The Takeaway Manager is the ultimate marketing tool. The main features of this software will allow you to record accurate information on all your customers, staff, suppliers and sales. But more importantly it will provide your business with strategic marketing functions that effectively result in rapid growth of your customer base and improve customer satisfaction.

Main functions include:

- Customers details; identifying most frequent customers and customers who have not ordered recently
- Sales tracking, identify most and least sale items
- Revenue records and reports for all sales
- Loyalty points system for returning customers

- Menu creation
- Multi level password

Special Feature Option

- Touch screen facility
- Table reservations (for restaurants)
- Identify regular customers (requires Caller ID facilities)
- Viewing postcode location (requires Internet connection)
- Digital video recording with remote monitoring (requires DVR system)

High-tech electronic solutions ltd offer the complete package. Our staff is there to help with all setup and training procedures including:

- Hardware setup
- Software installation
- Training for staff
- After sale support

Certification provided to key staff who attend training session. The Takeaway Manager offers all of these in one easy to use software package.
