SALON MANAGEMENT SOLUTION (SMS V1.0)

State-of-the-art software designed especially for successfully managing hair, spas and beauty salons offering a unique marketing capability that will:

- Simplify all your booking procedures
- Keep up-to-date client information
- Schedule appointments
- Monitor stock levels
- Log sales and generate revenue reports

Salon Management Solution is adding value to your business, increase sales and improve relation with clients, handles all of your administration tasks so that you can focus on growing your business while providing quality service to your clients. It's easy-to-learn, easy-to-use and automatically generates reports and marketing tools to help manage your business.

Main Features

The Salon Management Solution is the ultimate marketing tool. The main features of this software will allow you to record accurate information on all your clients, employees, suppliers and sales. But more importantly it will provide your business with strategic marketing functions that effectively result in rapid growth of your clients' base and improve client's satisfaction.

Main functions include:

- Appointment function for all client bookings and treatments
- Stock control for all salon products with re-order level alerts
- Client details showing preferred stylist, treatments and medical history
- Sales tracking of all salon products and services allowing you to identify market trends
- Revenue records and reports for all clients, staff, products and services
- Loyalty points system for returning clients
- Menu creation
- Multi level password
